

## 10.邊框Border

2019年1月8日 上午 10:42

### 1. 基本邊框設定

```
.demo {  
  padding: 5px;  
  margin-bottom: 1rem;  
  background-color: #ffffbf8;  
  border: 1px dashed #ffdfc5;  
}  
.box {  
  display: inline-block;  
  width: 5rem;  
  height: 5rem;  
  margin: .25rem;  
  background-color: #f5f5f5;  
  border: 1px solid;  
}
```

```
<div class="demo">  
  <span class="box border"></span>  
  <span class="box border-0"></span>  
  <span class="box border-top-0"></span>  
  <span class="box border-right-0"></span>  
  <span class="box border-bottom-0"></span>  
  <span class="box border-left-0"></span>  
</div>
```

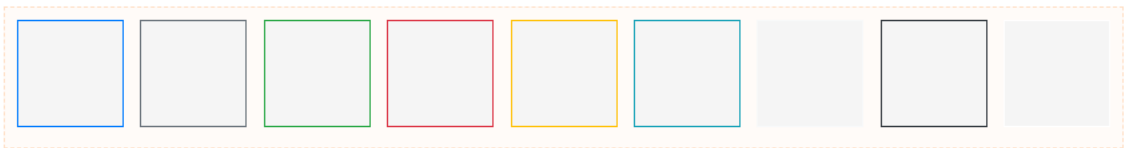

2. 加入 (primary, secondary, success, danger, warning, info, light, dark, white) 替換成不同色彩

```

<div class="demo">
  <span class="box border border-primary"></span>
  <span class="box border border-secondary"></span>
  <span class="box border border-success"></span>
  <span class="box border border-danger"></span>
  <span class="box border border-warning"></span>
  <span class="box border border-info"></span>
  <span class="box border border-light"></span>
  <span class="box border border-dark"></span>
  <span class="box border border-white"></span>
</div>

```

### 3. rounded (border-radius)

```

<div class="demo">
  <span class="box rounded"></span>
  <span class="box rounded-top"></span>
  <span class="box rounded-right"></span>
  <span class="box rounded-bottom"></span>
  <span class="box rounded-left"></span>
  <span class="box rounded-circle"></span>
  <span class="box rounded-0"></span>
</div>

```
